

SURF – PRO

TIME SAVER SURFACE CLEANER

TECHNICAL DATA SHEET

Name : **THE LIME & RUST BUSTER**
Product : Lime & rust eliminator
Code : BO-1934-1/BO1934-4

MADE IN CANADA

1.1 PRODUCT DESCRIPTION :

This product has been specially designed to remove stains and deposits of limestone and rust due to hard water without damaging surfaces or devices and this very effectively and without danger to the user. Note that this product does not dilute residues, it evaporates them.

1.2 USES :

Is used to destroy limescale deposits that accumulate in pipes, residential boilers, faucet, shower door, kettle, coffee maker, iron, humidifier, toilet, bath, etc. It also serves to remove rust stains on sink, bath, urinal, ceramic tile, brick, concrete, painted surface, chrome, glass, plastic, acrylic, wood, rubber, etc.

1.3 CHARACTERISTIC:

Ready to use and easy to apply.

Acts quickly and does not smell. No need to dilute.

Application temperature between 10 C and 32 C.

Coverage variable about 12m / 1 liter 125/1 liter.

1.4 RESTRICTIONS:

Do not use on galvanized steel.

Can affect the color of the paint, if in contact too prolonged 10 minutes and more. Do not apply on marble, the finish will be affected. Laminate tops (kitchen counter tops)

1.5 GUARANTEE:

This high-quality product is warranted as described in this data sheet and on the label. The manufacturer's warranty is limited solely to the product and the reimbursement of its purchase price. This product will provide complete satisfaction if stored and used in accordance with the manufacturer's recommendations.

TECHNICAL INFORMATION

2.1 Chemical composition:

Product based on acidic mineral acid phosphoric evaporating cycle.

2.2 Container size:

HDPE Plastic Containers, 500 ml, 1 liter, 4-liter, 20 liters, on order only, 200 liters.

2.3 Appearance: Liquid very fluid, colorless and almost odorless.

2.4 Storage: The product must be stored in a dry place and in tightly closed containers. The temperature of the storage room must be maintained between 10C and 30C. Provide adequate ventilation of the storage area. Do not store this product with products such as chlorine and bleach.

2.5 Physical and chemical properties:

• Boiling point	100 o c
• Freezing point	-40 o c
• Water solubility	100 %
• Viscosity	N/D
• Density	1.15 kg/litre
• Flash Point	N/D
• PH	1.8

APPLICATION PROCEDURES

3.1 SURFACE PREPARATION:

Some highly rusted surfaces should be brushed or sanded to speed up cleaning. It is recommended in some cases to proceed by soaking ex: shower head. Some surfaces with rust stains should first be wet, brick, concrete, stone, paving stone, painted surface.

3.2. APPLICATION INSTRUCTIONS:

Limestone and rust: Shower head, faucet cartridge, some filterers, tool, proceed by soaking (immersion) rinse with water.

Limestone: Coffee maker, teapot, kettle, iron, some humidifiers, introduce an appreciable amount of the product into the device about 1/2 cup 125 ml. Turn on the appliance for a few minutes, rinse with water, repeat if necessary, Caution, avoid inhaling the vapors during the operation.

Limestone: Pump, boiler, piping, circulate the pure product if possible until obtaining a satisfactory result. 1 liter to 4 liters should suffice most of the time. This operation should be repeated as needed, depending on the degree of reappearance of the limestone.

Rust and efflorescence: Brick, stone, concrete, painted metal surface, fiberglass gallery, first and foremost wet the surface, apply the product, let it act, to speed up the cleaning we can use a hair brush rigid Tampico. To remove efflorescence on the paving make one section at a time and rinse. For stains on metal surfaces, use a soft cloth to speed up the cleaning, not to leave the product in contact too long could affect the color of the paint or the finish.

3.3. The SURF-PRO LIME & RUST BUSTER can also be used as a bleaching agent for laundry, without damaging the fibers, in fact in some areas where the water is very hard the laundry does not become completely white after washing, simply add during the load approximately 50ml-2oz of the product.

Normal pistol (low pressure): YES.

Immersion: YES

Airless gun (low pressure): YES

Pad: With all reserve

Brush: YES

Jet: YES

Roll: YES

SAFETY MEASURES:

Corrosive and toxic product.

Ensure good ventilation.

Keep out of reach of children.

Keep containers closed when not in use.

Avoid contact with skin or eyes.
